## Realms

## Cinematic Spacing Alternative Instrument For QuBit Nebulae v.2

A cinematic spacing instrument where you are the observer of sounds in 'Rooms'. Move gradually between rooms or spaces with the [Speed] knob.

Position incoming signal with [Start] and [Density].

Different placement possibilities between Near, Far and incoming signals.

See 'realms.txt' for more info about all parameters, the many possibilities and about loading Realms and sound files (wav or flac).
